

Paromita Chanda

☎ +8801306537077 | ✉ paromitachanda03@gmail.com | [🌐 LinkedIn](#) | [🐙 GitHub](#) | [📁 Portfolio](#) | [</> Codeforces](#)

OVERVIEW

A dedicated and dependable individual with a strong interest in problem-solving and hands-on experience in building AI-integrated systems, native mobile applications, and full-stack web platforms, seeking an opportunity to apply and expand technical skills, support impactful projects, and pursue both personal and organizational goals

EDUCATION

Bangladesh University of Professionals 2022 - Present
Bachelor of Science in Computer Science and Engineering *Expected Graduation: August 2026*
Current CGPA: 3.90/4.00
Relevant Courses: Software Engineering, DBMS, Computer Network, Telecommunication Engineering, AI, ML

Holy Cross College 2019 - 2021
Higher Secondary Certificate (GPA: 5.00)

EXPERIENCE

RedDot Digital Limited Jul. 2025 – Aug. 2025
Software Development Intern, Onsite, Full Time *Dhaka, Bangladesh*

- Developed highly responsive UI components for the official company website revamp using React.js, Next.js, TypeScript, and Tailwind CSS, strictly adhering to atomic design principles and engineered modular and cross-device compatible webpage sections
- Collaborated in Business Analysis by drafting 20+ comprehensive user stories via OpenProject to align stakeholder requirements with development goals
- Conducted rigorous QA testing for the 'Robi Career Portal', formulating 50+ detailed test cases, executing black-box/white-box validation, and documenting bug reports

INVIXO Feb. 2023 – Apr. 2023
Intern, Remote *Dhaka, Bangladesh*

- Formatted subject-specific content using LaTeX for MCQ-based online exam platform for their RTB project
- Utilized MathJax, VS Code, Node.js and npm for academic content deployment
- Assisted front-end development ensuring user-friendly and consistent design
- Led promotional outreach efforts, directly engaging 400+ students, converting 150+ to enroll
- Got recognized as one of the very few top performers and was awarded a monetary recognition for exceptional contributions and dedication

SKILLS

AI & Machine Learning: Vision-Language Models (VLM), LLM API Integration, LoRA Fine-Tuning, Prompt Engineering, Explainable AI (XAI), PyTorch
Programming: C/C++, Java, Python, Kotlin, TypeScript, JavaScript, HTML5/CSS3
Web & Mobile Dev: React.js, Next.js, Tailwind CSS, Jetpack Compose, Flask, PHP
Databases & Cloud: Firebase (Auth, Firestore), SQL, Room Database
Tools & Architecture: Git/GitHub, VSCode, Cisco Packet Tracer, Proteus, XAMPP, AutoCAD, MVVM Architecture, RESTful APIs
Soft Skills: Teamwork, Adaptability, Active Listening

PROJECTS

VLM-based ACL Tear Detection (Research Project) | *Python, BioMedCLIP, LoRA, Flask, PyTorch* [GitHub](#)

- Spearheaded a novel multimodal Vision-Language Model (VLM) framework to automate knee MRI analysis, achieving 86.00% accuracy and an 88.46% AUC on the benchmark Stanford MRNet dataset
- Engineered a parameter-efficient fine-tuning pipeline utilizing LoRA and a custom Gated Attention Network to dynamically prioritize diagnostically relevant MRI slices without heavy GPU constraints
- Developed a Flask-based REST API and web dashboard to generate real-time clinical reports and Explainable AI (XAI) saliency heatmaps, providing visual transparency for medical professionals

Sohoj Sheba (Digital Service Assistant) | *Kotlin, Jetpack Compose, Firebase, Gemini AI* [GitHub](#)

- Integrated Google Gemini AI to power a context-aware, bilingual (Bangla/English) chatbot, utilizing robust prompt engineering and custom Markdown rendering for structured, accurate responses
- Configured the backend using Firebase (Auth, Firestore, Functions) with strict Row-Level Security (RLS) and established offline accessibility via local caching with Room Database
- Built a high-performance native Android UI using Jetpack Compose and MVVM architecture, featuring hands-free voice search and achieving an app launch time of under 2 seconds

Event Management System | *HTML, CSS, JavaScript, PHP, SQL* [GitHub](#)

- Dynamic platform for event creation, booking and filtering based on type, location, and budget
- Enabled improved decision-making past event tracking, user feedback, and processed 70+ transactions with zero data loss or corruption in local testing

Stock and Billing System | *C++* [GitHub](#)

- Console-based inventory and billing system using OOP and file handling
- Enabled product management and receipt generation with 100% transaction accuracy

Burger Shop Billing System | *Java Swing* [GitHub](#)

- GUI-based ordering app with Real-time price calculation and order customization
- Reduced manual billing by 70% and implemented reset/clear functions for smoother order management

CERTIFICATIONS

AWS Cloud Technical Essentials – Grameenphone Academy

Explored key AWS services including EC2, S3, and RDS, along with core cloud concepts such as scalability, availability, and cost optimization. Gained practical insights into AWS global infrastructure, VPC networking, and IAM

ACHIEVEMENTS

ICPC Asia Dhaka Regional Preliminary 2025

Ranked 37th out of 1717 teams

ICPC Asia Dhaka Regional Preliminary 2023

Ranked 455th out of 2875 teams

Academic Excellence Scholarship (2025-2026)

Awarded for being in the top 6% of academic performers in 4th, 5th and 7th semester

EXTRACURRICULAR ACTIVITIES

BUP Computer Programming Club

Assistant Joint Secretary, Competitive Programming and Software Dev Dept (Apr 2023 – Present)

- Assisted in organizing coding contests and technical events to foster competitive programming skills
- Mentored junior members and guided them in problem-solving and development practices and increased participation through awareness initiatives
- Built and presented a project for the club's project showcasing event [GitHub](#)

LANGUAGES

Bangla (Native) **English** (Fluent) **German** (Elementary) **French** (Elementary)
